K KRAIBURG

CUSTOM-ENGINEERED TPE AND MORE

HIPEX[®]

TPE with oil resistance

Advantages at a glance

- For under the hood applications
 - » Long-term thermal stability up to 150 °C
 - » High permanent working temperature
 - » Longterm chemical resistance to engine oils and greases
- Alternative to elastomers, providing outstanding advantages:
 - » Cycle time reduction compared to elastomers (no vulcanization required)
 - » Multi-component injection molding with mechanical anchoring
 - » Reduced part weight (lower density)
 - » No post-treatment (tempering or deburring)
 - » Recyclable
- Very good sealing properties
- Various color options available in-house
- Well established in different engine and gearbox applications in permanent contact with oil and heat
