

TPE for Drinking Water

Your certificated material solution

Advantages at a glance

- Thermoplastic alternative to conventional elastomers
- Tested and approved by DVGW work sheet W 270 & WRAS (BS 6920), ACS (DGS/VS4 n° 2000/232 from 27.04.00 + DGS/VS4 n° 99/217 from 12.04.99), and KTW
- Compliant to Regulation (EU) No 10/2011
- Custom-colored compounds with compliance certificate
- Excellent elasticity and outstanding mechanical properties
- Smooth, dirt and lime repellent surface
- Extrudable
- Excellent kinking performance
- Soft compounds from 55 to 90 Shore A
- Suitable for processing by injection molding and extrusion
- Excellent adhesion to PP/PE
- Well established in hoses, fittings and other applications in direct contact with drinking water
