

Our Know-how – Your Advantage

The KRAIBURG TPE Coloration Department will be happy to advise you on your options. We use only high-quality durable pigments for our TPEs. You also benefit from our worldwide delivery capability.

- KRAIBURG TPE matches and produces all colors with high color precision in sample and series production
- Wide range of bright and transparent colors
- Special technology to ensure material characteristics
- Monitored production process
- Comprehensive color quality control compared to agreed color standard
- Worldwide consistent color quality guaranteed
- Fast provision of color samples and excellent delivery times for colored compounds

Oliver Riedl

Coloristics Specialist

“The eye is what counts. An aesthetically pleasing visual always translates into greater value. We can customize your color to set you apart from the rest. Our in-house Color Team provides the right shade of color for TPE compounds with great precision.”

In-House Coloristics

- Specially trained, customer certified and audited experts for Color Matching and Evaluation
- High-end color instruments for accurate color matching and control
- Special effect pigments: fluorescent, pearlescent, laser printable metal or glitter

Color Adjustment

- Color match to:
 - » master sample
 - » RAL collection
 - » NCS color
 - » Pantone color
- “Zero Match”
Highly precise color matching with almost zero deviation to the target. Visually and instrumentally.
- Individual specification for each project
- **Color sample ready to ship within ten working days.**
